

X1-Micro (4-in-1)

The SolaX X1-Micro series of microinverters stands out as one of the most powerful options in the 4-in-1 microinverter category, boasting an impressive output power of up to 2200 VA. These cutting-edge products are specifically designed to handle the latest and previous generation of high-power modules with 4 independent MPPTs, allowing for substantial input current and output power capabilities. The integration of a reliable Wi-Fi wireless solution ensures consistent and dependable communication functionality. Offering a cost-effective solution for both residential and commercial solar applications, these microinverters are fully compatible with SolaX Hybrid systems and can also be seamlessly integrated into AC coupled systems on the market.

Features

- Max output power up to 2200VA with four independent input channels(MPPT)
- Up to 20A DC input current to be compatible with the high power PV module
- Built-in industrial grade Wi-Fi module for high reliability
- Safety protection relay integrated
- Support micro-grid, AC coupling solution with existing storage system
- Support the integration of a single-phase microinverter into a three-phase power grid system
- With Reactive Power Control and Rapid Shutdown Function
- Easy to install and maintain with small size, light weight
- IP67 protection class, more reliable
